Placement of Footer and/or Gravestone at Lake View Cemetery

Footers for all stones taller than one-foot to have a footer 4-feet deep. For stones less than one-foot high the footer to be 30” deep. All footers to be solid concrete with rebar in the concrete. All footers will be 3” larger on all the sides than the stone itself. The top of the footer to be 5” above the highest point of grade. If there is significant grade the most exposed side must have 3 feet of concrete in the ground. All footers to be placed on the west end of the lot/plot and to be confined to the west 24” of the plot/lot.

The following information is required, and the needed signatures added before any footers will be placed at Lake View Cemetery. *Incomplete forms will not be accepted; no footers will be dug until completed form is received by cemetery official.*

Monument Dealer & Phone Number: _____

Name(s) on Gravestone: _____

Lot Number and/or Lot Owner: _____

Purchaser Name & Phone Number: _____

Sketch of the Stone(s) or attach a copy *note direction stone is facing i.e. being read from west side of lot.*

Include all dimensions of stones and footers. Footers must have a 3” border on each side, and be 5” (or more) above ground.

Sketch of the Lot with prior burials and stones noted: North on the left, east at top, south on the right and west at the bottom:

Name & phone number person doing footer: _____

Cemetery official Signature & date: _____
